

Message to the people of Hiroshima and all the peace workers of the world From the Director of the movie "THE 4th REVOLUTION"

Since the birth of my daughter, on August 10th, 1983, I am working as a peace campaigner. We blockaded US nuclear weapon-transport (Pershing 2), we built up human chains of 150 km and more between big German cities and took part in lots of demonstrations.

In the 90's we connected the peace movement with the ecological movement. Because there are many similar goals! So, together we fought against nuclear power plants. We made resistance against nuclear waste transports to interim storage Gorleben. The name of this city in the middle of the blockades got well known throughout the country, throughout the world.

My target is a nuclear-free world. And in the last ten years we really see a way to get there.

Under the influence of the strong anti-nuclear movement in the society and shocked by the drama of Fukushima, the German government has decided to shut down all the nuclear-power-plants in the next eight years. Only eight years after 30 years of fighting!

And we replace the electricity of nuclear power plants megawatt hour by megawatt hour by renewable energies. 25 % of the German electricity is already produced by renewable energies. The closure of San Onofre Nuclear Generating Station shows the right way!

So we are encouraged that resistance can be successful. Never give up to resist and never give up to realize solutions in a total decentralized system of power-generation and distribution by renewable energies!

Nuclear is the top of centralization, economically and politically. That is the background for injustice, hunger, exploitation and wars.

Nuclear weapons countries, such as England and France, actually try to push the rollback to nuclear power in the world. This cannot be allowed!

When we stop nuclear power plants, we can free the world of nuclear weapons. Changing the world to 100% decentralised renewable energy is the key to survive.

This is the revolution, this is the 4th REVOLUTION as I tried to show it in my film.

So: Power to the people, that is the only way to get it!
